

List of Diagnoses
Platform PARTNER_ vers. 1.0_09Oct2024

General forms	Specific forms	Specific forms (cont.)	Specific forms (cont.)	Specific forms (cont.)
Carcinomas of appendix	Adrenocortical tumors:	Gonadal non-germ cell tumors (cont.)	Pancreatic tumors (cont.)	Salivary Gland Tumors (cont.)
Carcinomas of bladder	- Adrenocortical adenoma (benign)	- Steroid cell tumor (ovary)	- Solid pseudopapillary tumor – Frantz tumor	- Lymphoepithelial carcinoma
Carcinomas of breast	- Adrenocortical carcinoma (malignant)	- Thecoma (ovary)	- Other	- Mucoepidermoid carcinoma
Carcinomas of cervix uteri	- Adrenocortical tumor (undetermined)	- Other	Pheochromocytoma and Paraganglioma:	- Myoepithelioma
Carcinomas of colon and rectum	Appendiceal Neuroendocrine Tumors	Melanoma and MELTUMP:	- Paraganglioma	- Myoepithelial carcinoma
Carcinomas of other specified sites	Esthesio-Neuroblastoma	- Melanoma:	- Pheochromocytoma	- Oncocytic carcinoma
Carcinomas of unspecified sites	Extra-appendicular Neuroendocrine Tumors:	- Acral Lentiginous Melanoma (ALM)	- Other	- Oncocytoma
Chondrosarcomas	- Bronchial Neuroendocrine Tumors	- Desmoplastic Melanoma	Pleuropulmonary Blastoma – PPB	- Pleomorphic adenoma
Chordomas	- Liver Neuroendocrine Tumors	- Lentigo Malignant Melanoma (LMM)	Primary Lung Carcinoma:	- Poorly differentiated carcinoma:
Medulloepithelioma	- Neuroendocrine Tumors of unknown primary	- Melanoma on congenital nevi	- Adenocarcinoma	- Large cell neuroendocrine carcinoma
Neuroepithelioma	- Pancreatic Neuroendocrine Tumors	- Mucosal Melanoma	- Squamous cell carcinoma	- Neuroendocrine and non-neuroendocrine undifferentiated carcinoma
Rare bone tumors:	- Other	- Nodular Melanoma (NM)	- Adenosquamous carcinoma	- Small cell neuroendocrine carcinoma
- Giant cell tumors	Gastrointestinal Stromal Tumors – GIST	- Spitzoid lesion	- Small cell lung cancer	- Polymorphous adenocarcinoma
- Malignant fibrous neoplasms of bone	Gonadal non-germ cell tumors:	- Superficial Spreading Melanoma (SSM)	- Mucoepidermoid carcinoma	- Salivary duct carcinoma
- Odontogenic malignant tumors	- Adult Granulosa cell tumor	- Not classified	- Other	- Sebaceous adenocarcinoma
- Other rare malignant bone tumors	- Gynandroblastoma (ovary)	- Other	Salivary Gland Tumors:	- Sebaceous adenoma
Skin carcinomas:	- Juvenile Granulosa cell tumor (testis, ovary)	- MELTUMP [Melanocytic Tumors of Uncertain Malignant Potential]:	- Acinic cell carcinoma	- Secretory carcinoma
- Adnexal carcinoma of skin	- Large cell calcifying Sertoli cell tumor (testis)	- Atypical Spitz Tumors (AST)	- Adenocarcinoma, NOS	- Sialadenoma papilliferum
- Basal cell carcinoma	- Leydig cell tumor (testis)	- Cellular or atypical epithelioid / Spindled blue nevi (ABN)	- Adenoid cystic carcinoma	- Sialoblastoma
- Cutaneous neuroendocrine carcinoma (Merkel cell carcinoma)	- Ovarian borderline tumors	- Minimal deviation melanoma	- Basal cell adenoma	- Squamous cell carcinoma
- Squamous cell carcinoma	- Ovarian carcinoma	- Pigmented epithelioid melanocytoma	- Carcinoma ex pleomorphic adenoma	- Warthin tumor
- Other	- Ovarian Cystadenoma, serous, mucinous	- Not classified	- Carcinosarcoma	Thymic tumors:
Vascular tumors:	- Sclerosing stromal tumor (ovary)	- Other	- Canalicular adenoma and Other ductal adenomas	- Thymic carcinoma
- Hemangioendothelioma:	- Sertoli cell tumor (testis)	Mesothelioma	- Clear cell carcinoma	- Thymoma
- Epithelioid hemangioendothelioma	- Sertoli-Leydig cell tumors (ovary)	Myoepithelial carcinoma of Soft Tissues	- Cystadenocarcinoma	Thyroid carcinoma:
- Kaposiform hemangioendothelioma	- Sex cord stromal tumor with annular tubules (ovary)	Nasopharyngeal carcinoma	- Cystadenoma	- Anaplastic carcinoma
- Other	- Small cell ovarian carcinoma	NUT Carcinoma	- Ductal papilloma	- Follicular carcinoma
- Tufted angioma	hypercalcemic type	Pancreatic tumors:	- Epithelial-myoepithelial carcinoma	- Medullary carcinoma
- Other vascular tumors (angiosarcoma excluded)		- Acinar Cell Carcinoma	- Intraductal carcinoma	- Papillary carcinoma
Other rare borderline tumors		- Adenocarcinoma	- Lymphadenoma	- Other
Other rare malignant tumors		- Pancreatoblastoma
